DOOR COUNTY HIGHWAY DEPARTMENT
HOT MIX ASPHALT PRODUCTION**

Sealed bids will be received by the Door County Highway Department at 1001 S. Duluth Avenue, Sturgeon Bay, WI 54235 until 10:00 AM, April 22, 2022, for the following items.

Item 1. Furnishing approximately 9,900 tons of 4LT Hot Mix Asphalt Material for County Highway W, **CHIS program project # 17200**, for Door County, on Washington Island. The Hot Mix Asphalt product shall be loaded onto County Trucks for delivery and placement at the job site.

Item 2. Furnish approximately 9,800 tons of 4LT Hot Mix Asphalt Material for the Town of Washington, for various roads throughout the town. The Hot Mix Asphalt product shall be loaded onto County Trucks for delivery and placement at the job site.

Door County reserves the right to reject any or all proposals submitted, or to accept any part or combination thereof, to waive any technicalities, and to accept any proposal deemed most advantageous to the County. This work is being bid to comply with the State of Wisconsin, Local Road Improvement Program which is being used to fund a portion of the project costs.

Proposals shall be submitted on forms provided by Door County, 1001 S. Duluth Avenue, Sturgeon Bay, WI 54235, and marked "Proposal for 2022 HMA purchase-Washington Island". Copies of same, along with specifications may be obtained from the County Highway Department or from the County website: www.co.door.wi.gov and go to bids and for sale. Any proposal submitted after the date and time specified will be rejected.

FOR: Door County Highway Department
Town of Washington

BY: Thad J. Ash, Highway Commissioner

SPECIFICATIONS FOR HMA PRODUCTION DOOR COUNTY HIGHWAY DEPARTMENT

Hot Mix Asphalt Plant Special Provisions.

The contractor shall mobilize, erect, and operate a hot mix asphalt plant at the Washington Island mine site located at 998 Gunnlaugsson Road. The cost of transporting the asphalt plant equipment on the Washington Island Ferry will be paid by the contractor and reimbursement for those costs shall be included in the unit price bid. If material is produced for the private sector, the contractor is responsible for a prorated share of the ferry costs. Only one complete ferry charge for mobilization (to the island and off the island) will be reimbursed. The contractor shall submit original Washington Island Ferry Line receipts to the county.

All aggregates and sand used in the production of HMA for use on county and town roads will be provided at no cost to the contractor by the Town of Washington or the County of Door. Should it be necessary to purchase additional aggregates or sand from the private sector for the HMA production on county and town roads, this will be directly purchased by the county and town. The cost for the aggregates shall not be included in the cost per ton of hot mix asphalt. The county will be reimbursing the Town of Washington for the aggregates and sand taken from their inventory and used on county roads. The contractor is required to provide the county and the Town of Washington a detailed report which identifies the daily production of HMA and the quantities of aggregates and sand used in the production.

The tonnages represent an estimated total purchase, the final quantities will vary.

HMA material shall be available for loading onto county trucks from 6:00 a.m. to 4:00 p.m. Monday through Friday, (exact times to be worked out with plant, town, and county personnel), anticipating early May, (to be agreed upon by contractor, county, and town representatives). If the pickup times differ, the asphalt producer shall identify the times and dates material is available for pick up by the county. The asphalt producers' plant shall have production and storage capacity to provide a minimum loading rate onto county trucks of 200 tons per hour.

All proposals shall be firm proposals for at least 30 days from proposal opening date.

Basis of Payment: The county and the Town of Washington will pay for scaled quantities at the contract unit price for Hot Mix Asphalt.

Proposals shall be on specifications as herein furnished and shall not be altered.

The Door County Highway Department is exempt from Federal Excise Tax, but if there is a tax, it shall be shown in the proposal.

Asphaltic Concrete Pavement Mix

The contractor is required to develop a design mix for this contract. This work shall consist of the preparation of mixture for Hot Mix Asphalt Pavement, Type 4LT. Due to the limited availability of aggregate products, the contractor may be unable to meet the State specifications in the preparation of the HMA mixture. The contractor is required to provide the design mix to the County prior to construction and is also required to provide information on any deviations from the State design mix.

The requirements of the following sections and subsections of the Standard Specifications for Highway and Structure Construction of the State of Wisconsin, Department of Transportation, Latest Edition (2003) include:

- 450 General Requirements for Asphaltic Pavements.
- 455 Asphaltic Materials
- 460 Hot Mix Asphalt Pavement

The quality management program will not be required for this contract.

The cost of the mix design shall be incidental to, and included in, the unit price bid.

QUOTATION FORM

This proposal is submitted by the undersigned in accordance with the specifications and provisions contained herein and picked up at the Contractor's plant during the 2022 construction season.

The Door County Highway Department makes no guarantees on the estimated quantities.

Item No.	FOR	Loaded on	Item	Unit Price
1	CTH W - CHIS Project	County Highway Trucks	9,900 Tons 4 LT HMA	\$ _____ Ton
2	Town of Washington - Various town Roads	County Highway Trucks	9,800 Tons 4LT HMA	\$ _____ Ton

This proposal is submitted by the undersigned in accordance with the specifications and provisions contained herein for the 2022 construction projects on Washington Island.

The undersigned submitting this proposal hereby declares and agrees to furnish the material as listed herein in accordance with the terms, conditions and requirements of the within and foregoing proposal and specifications.
