Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism. The only requirement for membership is a desire to stop drinking. There are no dues or fees for AA membership; we are self-supporting through our own contributions. AA is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy, neither endorses nor opposes any causes. Our primary purpose is to stay sober and help other alcoholics to achieve sobriety. There are numerous free, local meetings.

Prevent Suicide Door County

In 2021, according to the [Centers for Disease Control and Prevention](#), 905 Wisconsin residents died by suicide.

Everyone can take action to prevent suicide. More than 60% of us will lose someone we know to suicide during our lifetime. More than 20% of us will lose a family member. Although most depressed people are not suicidal, most suicidal people are depressed.

Who attempts suicide?

- **Young people** – **Second leading cause of death** in WI for young people ages 10 to 19. **271 adolescents (ages 10-19) died by suicide** from 2013-2017.
- **Middle Age** – The suicide rate in WI was **highest** among individuals ages 45-54, 2013-2017.
- **LGBTQ** – LGBTQ youth in WI are **3 times more likely** than their heterosexual peers to have **considered suicide**.
- **Veterans** – Veterans accounted for almost **1 in every 5** suicide deaths in WI, 2013-2017. 70% of all veteran suicides are with a firearm.

Suicide occurs in every social class, every culture and at all ages. The presence of suicide warning signs in someone should never be dismissed with, “Oh, he’s not the type.”

Suicide Prevention in Wisconsin

- SUICIDE IS A PUBLIC HEALTH PROBLEM
- SUICIDE IS OFTEN PREVENTABLE with education, treatment, and support.
- 90% of the people that die by suicide have a TREATABLE MENTAL ILLNESS OR SUBSTANCE ABUSE PROBLEM. Of those 90% approximately 60% have a depressive disorder.
- We must address SUICIDE PREVENTION ACROSS THE LIFESPAN. If a grandparent dies by suicide, it increases the risk for other family members 5 – 6 times.
- SUICIDE IS COMPLEX.
- SUICIDE IS A COMMUNITY PROBLEM, and everyone can have a role in the solution.
- SURVIVORS of Family or Friends who have died by suicide and SURVIVORS OF ATTEMPTS of suicide should be included in prevention efforts.
- **Firearms are the most common method used in suicides. Firearms are used in more than 50% of suicides.** LETHAL MEANS RESTRICTION – gun locks need to be used or guns removed from the home; 71% of all **deaths by firearm** in WI from 2013 through 2017 were **suicide deaths**.

In 2021:

48,183 people died by suicide in the United States.

That is 1 death every 11 minutes.

➔ 12.3 million adults seriously thought about suicide

➔ 3.5 million adults made a plan

➔ 1.7 million adults attempted suicide

What Can We Do?

If someone you know makes you feel that they might attempt suicide, you should try to do the following things:

Learn the warning signs; know where to find resources to help. Talk openly to the person. Ask specific questions. Offer the person hope and an alternative solution.

Do not be afraid to talk about suicide or to use the word. This will not put the idea in their heads or influence them to do it.

Try to get them to talk about what it is in their life that makes them feel the way they do. The more talking on their part, the better.

Try to convince them they need to speak to a trusted person, teacher, coach, counselor, etc. Tell them you want them to get more help than just you alone can give. Go with them if necessary.

Confidentiality. If your friend asks you not to tell anyone, should you keep the secret? There is no rule of confidentiality when it comes to potential suicide. It does no good to keep the secret and lose the person. If you believe your friend is at risk, you must act. Offer to go with them to a counselor.

Suicide threats are a serious sign of trouble and need to be taken seriously so that people will not feel the need to resort to more drastic means of expressing their unhappiness.

Responding to a potential suicide in this way can help prevent many suicide attempts or even prevent someone from completing a suicide.
